MEMORANDUM FOR: Acting Deputy Director for Administration

FROM: James H. McDonald
Director of Logistics

SUBJECT: Impact of Hiring Freeze on the Office of
Logistics

1. The current hiring freeze will exacerbate some long-standing staffing problems in the Office of Logistics. Of particular concern is the shortage of engineers, couriers, and logistics/supply officers. For example, in our Real Estate and Construction Division we are authorized [] engineers/architects and technicians; we are 7 below strength. This doesn't include our 5 new external requirements to fill positions in OC, NPIC, OSO, []

25X1

25X1
25X1

[]

Agency direct contracting are imposing an extraordinary work load on our presently understaffed engineering resources. Ongoing strategic planning initiatives to enter into a major building consolidation program at Headquarters, to undertake maintenance and operations function from GSA, and to provide more effective engineering support to the field will require even more engineering and technical resources. As a minimum, we need 7 engineers/technicians just to continue to meet current needs, needs that are primarily in support of important operations. []

25X1

2. The courier situation is one that we have brought to the attention of the Director of Personnel Policy, Planning, and Management on several occasions. The attrition rate is such that we can never get up to full strength. We generally hover just around the critical level of []. To provide an idea of the problem we have with couriers, we entered on duty approximately 27 during CY-80, and we still aren't at strength. We are authorized [] personnel, currently have on duty [] and will be at [] (critical) by []

SUBJECT: Impact of Hiring Freeze on the Office of Logistics

the end of February when 5 scheduled transfers to other offices are effected. Our couriers support over 90 internal and external mail runs serving 683 delivery/pickup points. They carry all kinds of classified material, including Top Secret and Codeword, which requires that two persons accompany such material [redacted]. Courier services range from routine internal pickup/delivery to external service to [redacted] to the Capitol to pick up the Congressional Calendar for OLC, to the [redacted] etc. Attachment A is a 29 June 1980 memorandum from the Chief, Logistics Services Division, showing the 25 additional courier requirements added between June 1977 and June 1980. Without new couriers entering on duty, we would not be able to continue all essential services. [redacted]

25X1

25X1

25X1

25X1

3. The problem in the logistics/supply officer area is one that has developed during the past year. We have had a large number of "supply" retirements (18 for FY-80, 5 for FY-81) plus a large number of new requirements, including several to meet operational needs in the Near East Division/DDO and several in the [redacted]

25X1

[redacted] We currently have pending requests from [redacted] OTS, OC, Combined Support Staff/DDO, and OTE. [redacted]

25X1

4. Attachment B is a list of new requirements levied on this Office in the past 12 months. In addition to the problem of providing personnel to fill these permanent positions, there has been a tremendous increase in the TDY requirements for engineers and supply officers. At present we have a 10-person supply team overseas for 8-10 weeks to support the Near East Division. Several months ago we had to send a 3-person supply team overseas for OTS and one supply officer to NE/Foreign Field for 3 or 4 months. We have current requirements for TDY supply assistance in NE/Foreign Field and at OTE and CTS Headquarters. We have continuing requirements for TDY engineering assistance. Currently, there are 2 engineers on a 6-week overseas TDY and 4 additional requirements are pending for 5 people overseas. In the past 12 months we have had 14 overseas requirements involving a total of 20 people. There also have been numerous domestic TDYs. [redacted]

25X1

SUBJECT: Impact of Hiring Freeze on the Office of Logistics

5. We currently have 8 engineers and 5 supply officer trainees whom we have submitted to OPPPM to put in process. It has taken much persuasion, salary negotiation, and overall recruitment effort to get these applicants. The recent hiring freeze devastates many months of effort to hire time-perishable assets. If we cease hiring and have to start over again, it will be at least a year before we can expect to actually enter on duty anyone in a "hard-to-get category," such as engineers. We, therefore, request an exception to the hiring freeze for engineers/architects/technicians, couriers, and logistics officer trainees.

MEMORANDUM FOR: Director of Logistics
 ATTENTION: Chief, Personnel and Training Staff, OL
 FROM: [REDACTED]
 Chief, Logistics Services Division, OL
 SUBJECT: Staffing of the Mail and Courier Branch

Mr. McDonald,

1. The following is provided for your information with respect to the staffing problems in the Mail and Courier Branch (M&CB).

a. In September 1977, fifteen additional courier positions were requested in order that we be in compliance with the provisions of [REDACTED] which requires that codeword and/or top secret material be transported/accompanied by two persons. Positions were requested as follows: Seven -- one for NPIC; three for 24 hour cable shift; one for [REDACTED] one for Executive Registry specials; and one for Defense Mapping Agency, Office of SIGINT Operations, [REDACTED] Four to satisfy a requirement for timely delivery of codeword material to [REDACTED] and four, as a minimum, to handle special runs and requirements.

b. Since the approval was received to exceed our ceiling by fifteen positions, the M&CB has received the following additional requirements --

<u>DATE</u>	<u>REQUESTOR</u>	<u>REQUIREMENT</u>	
28 June 1977	C/SS/OL	[REDACTED]	25X1

SUBJECT: Staffing of the Mail and Courier Branch

<u>DATE</u>	<u>REQUESTOR</u>	<u>REQUIREMENT</u>
24 Mar 1980	DDO	Service three times daily to SG/ADB Room GB-0704.

c. A run for Executive Registry requires two persons because of security and parking problems when making deliveries to the White House, Community Headquarters and Justice. The following runs require two persons due to volume - Cable Run (0630-1500), Cable Run and Airport (1500-2330), Early NID Run (0600-1730), Early OEL Run (0630-1500), Record Center, State Pouch, [redacted] Rosslyn Shuttle, [redacted] DD&E Run, Cafritz Run, City Run, Pentagon, Postal and NPIC. In addition, two persons are required for the following runs based only on security - Cable Run (2315-0745) and Executive Registry (1500-2300). Total requirement is for 40 persons. Exception to the two man security rule will not provide any relief.

d. In order to maintain the correct level of service, we require on board each day - [redacted] persons for external, [redacted] persons for internal, [redacted] supervisors, [redacted] porters, and [redacted] codeword clerks for a total of [redacted]. This figure does not take into account -- specials, scheduled leave, sick leave, training or unscheduled leave.

e. During the last six months, we have averaged [redacted] persons slotted against a T/O of [redacted] but only [redacted] persons actually on board each day. For June, through the 25th, we have averaged [redacted] persons on board. This type of situation has required overtime in order to maintain the current level of service. In FY 1979, M&CB worked 14,030 hours of overtime and 9443 hours through May of FY 1980. In addition, we have had supervisors going on external runs, sorting mail, operating the x-ray and assisting in codeword control.

~~SECRET~~

SUBJECT: Staffing of the Mail and Courier Branch

f. We continue to make periodic reviews of requirements and make consolidations wherever possible. However, where some areas may appear to be vulnerable, either executive interest or insistence on maintaining the current level of service has precluded us from taking action.

2. Some of the information contained herein may be difficult to follow for anyone not working with the problem on a day-to-day basis. For instance, specials are discussed a number of times and could lead one to draw the conclusion that we have requested too many positions for specials. However, the specials mentioned in paragraph 1(a) were absorbed in order to respond to the additional requirements discussed in paragraph 1(b). Hence, the comment in paragraph 1(d) with respect to specials. I will be glad to discuss this memorandum with you and/or the C/P&TS/OL.
